### PANIC UNEARTHS A GREAT PLAYER

HOW FIELDER JONES, CAPTAIN OF WHITE SOX, BROKE INTO PROFESSIONAL GAME.

#### A CIVIL ENGINEER AT TIME

Working in Far-Off British Columbia When Financial Depression of 1891 Threw Him Out of a Job-Led Eastern League in Batting Four Years Later.

One big panic cost the world an able civil engineer; this same panic gave base ball one of its showlest exponents. In the year 1891 a young Pennsylvanian, with transit, plumbline and other equipment of his profession, was surveying the dreary wastes of British Columbia

Expenses were small and salary liberal, and the Quaker saw prospects of a fortune, as the field seemed unlimited. Then came the turbulent financial depression of that year.

Capitalists withdrew their support rom various enterprises in that country, and one day the young Pennsylvanian found himself minus a job and thousands of miles away from home. Something had to be done. The young man had an athletic build, so he did what most husky chars do when everything else fails-play base

This young chap was Fielder Jones. the maanger and center fielder of the White Sox, and had not the panic taken place he might now be merely the greatest engineer in the world, instead of the field marshal of the

plate with time to spare. That was world's champions. Good support helped Glassie, Red-After the Canadian bubble burst, man made a great catch of a foul in Jones returned to his home at Shingle House, Potter county, Pennsylvania. In 1892 and 1893 he-was playing base ball sporadically with small teams. ile had learned the game while a student at Alfred university, one of the smaller institutions of learning in New York state.

"If Penn, Yale, Princeton, and the big colleges copied after little Alfred," said Jones, with a smile, "there would be no controversies about the eligibili- blue, and blue stockings, quite a surty of players and charges of profes-

the Eastern, league clubbers with a Legs of Cincinnati. Walnwright, at

# S. S. OF MALARIA

Malaria is an atmospheric poison which we unconsciously breathe into our system. The blood in its constant passage through the lungs absorbs the germs, and they destroy the rich, red corpuscles of this vital fluid and reduce it to such a weak, watery condition that it is unable to properly nourish the system, and disease gets a footbold. Then the symptoms of Malaria, such as pale, sallow complexions, weak vitality, poor appetite, deranged digestion, and perhaps chills and fever show that the trouble is affecting every part of the body. Malaria also affects the liver, producing a chronic state of biliousness, and often a long spell of fever follows when the blood becomes fully contaminated with the poison. Chronic Sores and Ulcers, boils, aches and pains, and skin affections of various kinds often result from this insidious disease if the poison is allowed to accumulate in the blood in sufficient quantities. Malaria must be removed from the system through the circulation, and for this purpose nothing equals S. S. S. This great remedy goes down into the blo and drives out all germs, microbes and poisons, and permanently cure furnishes it has the healthful properties it needs, so that instead of a weak, germ-infect stream, spreading disease throughout the system, it becomes a rich, red auid, nourishing the body and enabling it to resist disease. S. S. S. is also the greatest of all tonics, and builds up and invigorates the entire system while ridding the blood of the germs of Malaria. Persons who are suffering from Malaria will be pleased with the prompt and pleasant results produced by the use of S. S., and can take it with confidence because it is an absolutely safe medicine, being free from harmful minerals of any kind. Book on the blood and any medical advice desired sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

percentage of 399. This performance attracted widespread attention and ciubs eagerly sought Jones' services, Brooklyn made the best proposition to the Springfield management and Jones, therefore, was drafted by the Dodgers

-He proved the find of 1906, having a swat credit of .356 to show for his first year in fast company, and virtually his second year in professional base ball.

Jones continued to be a Brooklyn idol until 1900, when Owner Comiskey's gold lured him to Chicago. Jones never regretted the move; neither did Comiskey. The only protest came from Brooklyn, who did not want to part with a star sflently.

In 1903 Jones got the chance for which he had long waited. Owner Comiskey let Clarke Griffith, his manager, go to New York, and he promoted Jones to the position of manager. In the three years he has held the management reins the Sox have not finished below third place.

In 1904 they landed in third place; in 1905 they finished a notch higher, and last year they won the pennant and world's championship. This season the team is again a championship contender, aithough it has lately met

# OLD-TIME BASEBALL

GREAT GAME PLAYED AT AN-NAPOLIS IN '68.

When the Jeffersons Met the Monitors and Had to Work to Win-Doings of Men Who Are Since Famous.

"In the early days of baseball it was a wonderful thing for our local teams to make visits to other towns and cities, and our embryo tourists regarded the trip down to Annapolls. they met the future rulers of the sea. as a top notcher." said old Musty Record as he scanned the copy at the sporting editor's desk, according to the Washington Star.

"It was a pretty long trip in those times. You had to get up with the sun if you wanted to reach Annapolis the same day, as the then fast going Baltimore & Ohio only had one train out that connected with that 'air line' that worked its way from the junctions and stopped at every signal, like our old-time horse cars.

'The first team to visit Annapolis rom Washington, and, indeed, perhaps the first from any place, was that lively bunch of amateurs called the Jeffersons, who were just coming to the front in 1868 as the leading exponents of their class of ball tossers. This visit took place on Thanksgiving day, so you can see here aiso that on that national holiday baseball was the real thing, though at this progressive period it is football. In honor of the visit great preparations were made by our gallant naval officers to make the affair notable.

The naval academy chaps called themselves the Monitors, in honor, perhaps, of the then new craft the navy had made historic, and their uniform consisted of white flannel shirts and knickerbockers trimmed with prise for the visitors, as the Jeffer sons at that time, as most of the clubs elsewhere, except the famous t merely confined all sports exclus- Stockings, were still wearing long
